4 October 1966

[REDACTED]  
Langhorne, Pennsylvania 19047

Dear Mr. [REDACTED]

Reference your recent unidentified observation. The information in your letter was not sufficient for evaluation. Request you complete the attached FTD Form 164 and return it in the envelope provided.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

*H*  
HECTOR QUINTANILLA, Jr, Major, USAF  
Chief, Project Blue Book

The object was very bright, as  
bright as the stars of Cassiopeia.  
It became dimmer as it went  
toward the horizon, but was  
still visible when it went below  
the horizon. There was no sound. It  
was the size of the stars of Cassiopeia  
when seen with the unaided eye.

A black and white photograph showing a long, dark, horizontal object, possibly a log or piece of wood, resting on a surface. The object is mostly in shadow, with a bright, overexposed area on the left side and a dark, irregular shape on the right. A small, dark, L-shaped mark is visible on the far left edge of the frame.

Sept. 24,  
1966

Seen through a telescope.  
it looks like this.

white chain like object with  
white ring around it.
